

Key Points
USDA Rural Development
(U. S. Department of Agriculture Rural Development Programs)
Rural Business Cooperative Service

Intro: The Rural Development State Office, located in Bozeman, administers three U. S. Department of Agriculture programs, supporting such essential public facilities and services as water and sewer systems, housing, health clinics, emergency service facilities and electric and telephone service. Rural Development promotes economic development by supporting loans to businesses through banks and community-managed lending pools, and provides technical assistance to cooperatives or community groups. The Rural Business Cooperative Service provides a number of loan and grant programs to help build, sustain and grow rural businesses and rural cooperatives.

➤ **Programs funded**

1. *Rural Business Opportunity Grants (RBOG)* that promote sustainable economic development by funding economic development planning, technical assistance, or training.
2. *Rural Cooperative Development Grants (RCDG)* that fund the establishment and operation of centers for rural cooperative development.
3. *Rural Economic Development Grants (REDG) and Loans (REDL)* that fund Community Programs in order to promote economic development and job creation projects in rural communities.
4. *Community Facilities (CF) Grants, Guaranteed Loans, and Direct Loans* fund the construction, expansion and improvements of certain community facilities.
5. *Value-Added Producer Grants (VAPG)* help producers to develop businesses that produce and market value-added agricultural products.
6. *Intermediary Relending Program* provides one percent loans to nonprofit organizations for the establishment of revolving loan funds (RLFs).
7. *Business and Industry Guaranteed Loans* fund the creation and maintenance of employment in rural communities by financially backing new and expanding businesses.
8. *Renewable Energy and Energy Efficiency Grants and Guaranteed Loans* finance the implementation of renewable energy production systems and the implementation of systems designed to increase energy efficiency of agricultural producers or rural small businesses.

➤ **Eligibility**

Generally, Rural Development services are for areas with less than 20,000 in population. Some are further restricted to communities with less than 10,000 or 5,000, with income limits as well. Each of the RBS program has specific eligibility requirements for each program offered.

Eligibility details for each program are available on the table attached, on the respective Internet sites (below), and through discussion with program directors.

➤ Application Process

After exploring the appropriate web site pages (below), applicants should contact Program Directors for each area to discuss potential grant or loan projects and learn detailed application requirements. Rural Development staff will be glad to discuss a community's needs and the services available from Rural Development and sister agencies within the USDA. Potential applicants in Yellowstone County should contact the County Commissioners and Big Sky EDA to inform both of interest in County sponsorship of a proposal.

➤ Deadlines

Deadlines are variable for each program. Applicants should inquire about deadlines once the appropriate area and program are determined.

➤ Resources for more information

1. *Rural Business Cooperative Service*

Program Director is John D. Guthmiller, phone (406) 585-2549

The *Montana State Office* for USDA Rural Development is at P. O. Box 850, Bozeman, MT 59771. Phone number is (406) 585-2580.

The *Billings Area Office* is at Building A, 1629 Avenue D, Billings, MT 59102. Phone number is (406) 657-6297, Extension 4.
